Mr. Carlson

Date: _____

Project Title: _____

DRAFTING SPECIAL PROJECT CONTRACT

Contract Introduction: Meaningful, real projects create the best learning that there is. Designing something that is actually built is the best test of your planning, designing, problem solving, and analytical thinking skills.

Project Grading: Projects require a broad set of grading standards. Grading will include the following components:

1. Participation point percentage grade will be at least half of you grade. It is best to be in class everyday on time working all period.
2. Products created will be the other half of your grade. Industry quality standards will apply and a reasonable quantity of work will be expected. A daily journal would be very helpful.
3. No A's with 6 or more unexcused absences. It is OK to do make-up for participation points "spent" on unexcused absences and tardies at the rate of 1 full (25 min.) tutorial per unexcused tardy and 2 full (25 min.) tutorials per unexcused absence.

Your Project: Please introduce your project below in several sentences.

Your Finished Product(s): Please describe your finished project below in detail listing the actual drawings that it will include.

Grading Your Finished Product(s): Please describe how your finished project should be graded below. Include the A, B, and C range.

A = _____

B = _____

C = _____

Signature Section: Please obtain the signatures below and date them.

Student Signature: _____ Date: _____

Instructor Signature: _____ Date: _____

Parent/Guardian Signature: _____ Date: _____

Self Assessment Section: Please Self-Assess your performance below and indicate what you feel your grade should be. Also include at least 4 listed reasons supporting your self-assessed grade.

Self-Assessed Percentage = _____ Self-Assessed Grade: _____

Support Statements:

1. _____

2. _____

3. _____

4. _____
