Poor Attendance Warning Contract

Attendance/Participation Policy and Rationale

School attendance rules will generally apply. In addition, it is extremely important to attend this class every day and be on time prepared to work and learn. Steady, daily, appropriate participation is very important for success in this class. **Up to One third (33.3%) of your grade is based on the class Self-Discipline & Participation (SD&P) Policy.** You start the trimester with 100% in your "account" and will spend (or subtract) 5% for each unexcused absence and will spend (or subtract) 3% for each unexcused tardy. This has been/will be explained in class. Spent participation points can be earned back if you desire. See the instructor for any additional specifics or questions. Most students use the "Pink Slips" to excuse absences. They can be obtained from the attendance office. Remember that it is only unexcused absences and unexcused tardies that affect your grade negatively in this class.

This policy has been established because attendance and self-discipline are the most important attributes of an employee in the "world of work" when it comes to retaining a job. Good habits should be formed and practiced in school to prepare for a successful future. This policy and contract are designed to help you learn good habits for the workplace.

Current Problem

You currently have a SD&P percentage of _____

Your record includes _____ unexcused absences and _____ unexcused tardies.
Continued poor attendance will radically affect your ability to pass this class.

Your Contract Plan

I intend to quickly solve my attendance problem by _____

If I continue having poor attendance, I recommend that I serve one (1) Friday school when my SD&P score is down to approximately 50%.
